

Olink® Biomarker Panels

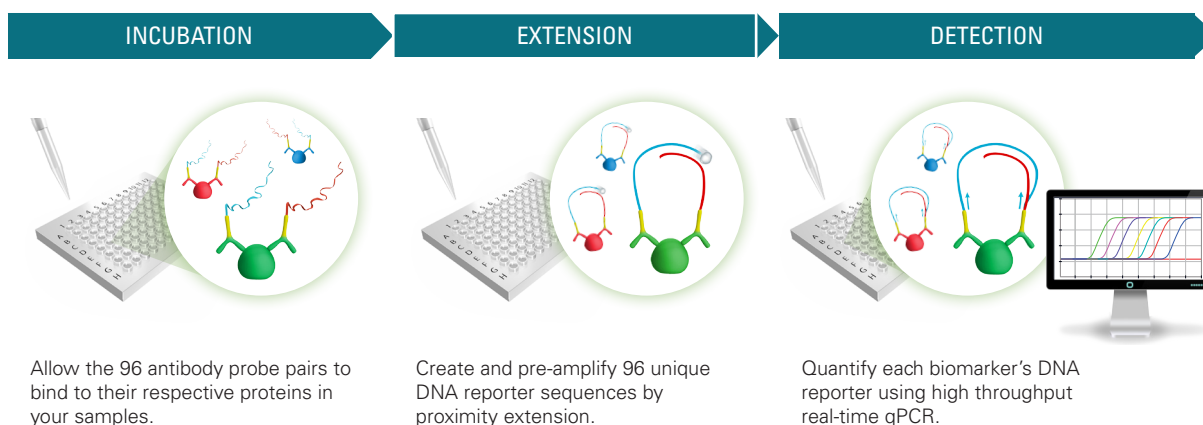

Precision proteomics for targeted protein biomarker discovery - to enable precision medicine..

- ▶ High quality data you can trust
 - high-multiplex immunoassays with exceptional readout specificity
 - effective QC tools built in to your assays
- ▶ The rapid high throughput analysis your research deserves
 - 92 human protein biomarkers measured simultaneously in 96 samples
- ▶ The most effective use of your precious samples
 - only 1 µL consumed per panel and a wide range of sample types possible
- ▶ The flexibility to best suit your needs
 - use our kits in your own lab, or let our experts in the Olink Analysis Service run the assays for you
